

Lab 7: Tailwind CSS

Name: Yem Phalpichkiri

Class: M2

Tailwind v4 · Simple Page

DocsExamplesHelp

Build fast with Tailwind CSS v4

Utility-first classes let you design directly in your markup-no custom CSS needed.

Features

Features

Practice layout, spacing, typography, buttons, and forms with responsive variants.

Utility-first

Compose styles using small, single-purpose classes.

Try it

Responsive

Use sm, md, lg prefixes.

Learn more

Dark mode

Automatic via prefers-color-scheme.

Explore

Typography

Responsive text: `text-base` → `md:text-lg`

Muted small text for descriptions.

Longer paragraph with relaxed line-height to improve readability across multiple lines.
